

- Available in Amber HDPE, or Dark Amber Polypropylene
- C-Grip body features advanced ergonomic design
- Features a wide-mouth design for easy filling and cleaning
- FlexiBarb and FlexiCap technology provides the flexibility of interchangeable connectors
- **Made in the USA** 

Caution

- Do not use carboys under pressure or full vacuum
- Do not use carboys at temperatures greater than the rated maximum
- Do not store oxidizing agents in carboys
- Do not flame carboy
- Do not use carboy spigot as a handle

TBL Plastics' C-Grip Amber Carboy is an advanced fluid handling system developed with the end-user in mind. The ergonomically designed C-Grip body, coupled with our FlexiCap technology, provides an easy-to-use and easy-to-clean carboy.

The C-Grip carboy's body includes design features that allow the user to easily hold and manipulate during lifting, filling, and pouring while the FlexiCap technology provides interchangeable and leak-proof top connections. The carboy features include a set of handles at the top and bottom of the carboy, easy-to-read embossed graduation marks, and a molded-in material-type identification mark.

The C-Grip Amber Carboy offers a wide-mouth version for easier filling and cleaning. This is available for both the 20L and 40L carboys.

The C-Grip Dark Amber Polypropylene Carboy is made from a hard, opaque material that offers good chemical resistance and heat stability. Amber polypropylene carboys may also be autoclaved.

- 1 Novel shape maximizes bench and shelf space
- 2 Bottom handles provide a secure grip while lifting and transporting
- 3 Large top handles for a full hand grip
- 4 Molded carboy identification marks
- 5 Large, clear graduation marks with $\pm 5\%$ accuracy
- 6 FlexiBarb technology featuring autoclavable spigot
- 7 FlexiCap technology with versatile adapters and replaceable gasket
- 8 C-Grip body design allows for maximum solution recovery
- 9 Wide-mouth shape for easy filling and cleaning
